

**FastTrack<sup>SM</sup> Testing**  
**All Prices in USD**  
**Effective October 1, 2023**

Category	Clinical Testing	Price
HLA Typing	NGS-based long-range sequencing: HLA-A, -B, -C, -DRB1, -DRB3/4/5, -DQA1, -DQB1, -DPA1, -DPB1	815
	Intermediate-resolution HLA-A, -B, -DRB1	230
	Allelic resolution typing - single locus	105
	Intermediate-resolution typing - single locus	80
HLA Antibody Analysis	Single antigen bead - class I	285
	Single antigen bead - class II	285
	Complement binding (Clq) - class I	335
	Complement binding (Clq) - class II	335
Lymphocyte Crossmatching	T cell	260
	B cell	260
	Virtual	0
Chimerism	Pre-recipient	290
	Donor	290
	Post HCT - whole blood	290
	Post HCT blood - T cells	290
	Post HCT blood - B cells	290
	Post HCT blood - myeloid cells	290
	Post HCT - whole marrow	290
	Post HCT - CD34 marrow	290
	Post HCT blood - CD8	290
	Post HCT blood - CD14	290
	Post HCT blood - CD15	290
	Post HCT blood - CD56	290
Other Non-HLA Test	KIR	200
	CCR5 Δ32 mutation	115

FastTrack Testing enables transplant centers to access best-in-class, cost-effective histocompatibility testing that provides rapid results for patients, related or unrelated donors, and cord blood units. When you use FastTrack Testing, you will receive your results in three days or less. The rapid turnaround time allows you to have the information you need to make treatment decisions sooner.

FastTrack Testing can be your sole provider of HLA testing or serve as a back-up to your lab when needed. This allows your program to be adequately supported for your HLA-testing needs at all times.

Contact your case manager for more information on how to get started. Our Clinical HLA Services team is also available to provide clinical HLA consultation and data interpretation.
