

Facebook Donor Community: Potential Donor Email

Add the following to existing Initial Call Summary email as an additional bullet before “Learn more, spread the word, get more involved”:

Join the NMDP Donor Community Facebook group to connect with past donors and others currently going through the donation process: <https://www.facebook.com/groups/1927212984215500/>

- o Simply click the “Join Group” button and answer three screening questions so we can confirm your status as a potential donor. When asked for the group password, enter “MarrowSavesLives”.
- o A Community Manager will review/approve your request.
- o Once you join, read the pinned post about the group guidelines, including appropriate conduct, confidentiality, and that donor posts don’t constitute medical advice.
- o If you have any questions about the group, contact the Community Managers at DonorCommunity@nmdp.org.
