

MatchSource[®] Release Notes – April 1, 2024

Feature or enhancement	Summary of change	Benefit
Workflow Manager & notifications	Updates include: <ul style="list-style-type: none"> • More detailed notification titles on the left panel • Appointment dates now appear in chronological order • New "Find" feature on left panel to allow searches by Patient Name or RID • Ability to show or hide HLA typing results within a notification • Displaying a numerical count of notifications • Faster loading speed 	<ul style="list-style-type: none"> • Enable easier & more efficient patient case management • Decrease load times • Improve overall usability and user experience
Cord blood search result cleanup	Cord inventory from WMDA will no longer be displayed on the search results page for the following cord registries: Italy, Spain, France, UK-BBMR, UK-Anthony Nolan, and Germany-ZKRD.	Decrease the number of duplicate units listed, reduce confusion, and increase search efficiency.
System improvements: HapLogic enhancement	HapLogic is the back-end system that runs our search algorithm. NMDP recently upgraded the technical architecture for HapLogic. <ul style="list-style-type: none"> • As a result of this upgrade, 4/8 searches will run in a much shorter time and can run at any time of day, instead of after normal business hours. 	Supports the MMUD study and the ACCESS trial, which show that certain transplant treatments allow patients to receive mis-matched grafts from unrelated donors with outcomes that approach full matches.
Other enhancements	<ul style="list-style-type: none"> • An updated 'unit of measure' field for CFU Post Processing Test and CFU Sample Test on the Cord Details page & export. This field will display the actual value of the test result. • Tooltip on Donor Age (Donor Detail page) shows Donor birthdate. • Repository Sample field has been removed. NMDP no longer stores repository samples for donors. • New reminder when recipient is still in PRLM status and user adds sources to a cart for ordering; reminder includes options to 	Makes MatchSource easier to use and provides access to additional information.

	update Transplant Timeline or proceed without updating.
